

## Feed The Fire

### Hundred Reasons

Now I seem to forget  
And wonder why  
This is all negated  
Bide the time  
Take it in  
But it's so overrated now  
But it's fine  
So you always beg for more  
And you were never satisfied  
So you always beg for more

Your heroes died  
To get out of your way  
Feed the fire  
Same as always

Did you need me to think  
If it's all true  
That I am always goaded  
To lead the blind  
Is all you know  
As it's so familiar now

And still you learn  
To take time over whoever you kill  
But still you learn  
But you'll burn
