

Blazing horizons  
Burning the sky  
Can't hold me back from the bull's eye

Yearning for heaven  
Bursting the gloom  
I'll vaporize this earthly tomb

Riding lines that slice the night  
and fill the celestial bowl  
Roll a sphere of stars about my soul

Zenith  
Blaze the sky  
Zenith  
High

Seizing the cosmos  
With beings of light  
We'll smoke the galaxies tonight

Soaring on a constellation  
Through the northern sky  
Vertical forever, we can't die  
We can't die  
Stay high

Zenith  
Blaze the sky  
Zenith  
High  
Zenith  
Never die  
Zenith  
High

Zenith stay high  
Burn free or die
