

Calmly

Hurray For The Riff Raff

Calmly, go calmly
Calmly for a while
Go calmly go calmly
Calmly for a while

I can feel your breath on the back of my neck
Heard your voice on the breeze
Go calmly go calmly
Calmly tonight for me

Into the dark
Oh oh
Into the dark
Oh oh
Oh
Oh

You've got elephant eyes in your head
They hold the path to your chest and
Strain your neck just to see something bigger than you and me

Oh no I'm left alone
Oh no I stay alone
Alone Oh
Oh Oh Oh

I would never I would never do that to you well you know me Oh
I would never I would never do that to you well you know me Oh
I would never I could never do that to you well you know me Oh
I would never I could never do that to you to you

Oh Oh Oh
Oh Oh Oh
Oh (oh) Oh Oh
Oh (oh) Oh Oh
