

I Know You

Hurray For The Riff Raff

I know you
I know you
Least I think I do
Least I think I do

Well how'd I go and get myself
Into this one this time
Oh no, oh no, I'm falling down
I had the seashells in my eyes

You should never fight
With a lover for your life
You deserve the sun
Just as much as anyone

And someday you'll make up
For all the time you've lost
Someday you'll make up
For all the time you've lost

I know you
I know you
Least I think I do
Least I think I do
