

Smiles Like A Child

Hurricane

Hips on the bar, lips on a cigarette
She's the only kind of trouble I ain't had yet
With her eyes of fire, looks of steel
I can't believe that she's for real
Liquid curves, from her head to her shoes
Slamming down the doubles, like there's nothing to lose

She comes on like a rolling train
She blows on like a hurricane
When she's on she's tough to tame
But when she comes,
She smiles like a child

Smiles like a child, (She's driving me wild)
Wild like a child, (Her eyes are on fire)
Fire like a child,
She smiles like a child

Tattooed heart that say's ready for love
Make you feel like you been hit from above

She'll tell you a lie 'cause she wants to be bad
Do to you things that'll drive you mad
A slam, bang ride, like you never had
But when she comes,
She smiles like a child
