

# Take Me In Your Arms

Hurricane

I took a long way home I've been a long time gone  
Tired of being here alone at the end  
We can't go on like this  
It's tearing us apart  
When I get home  
We can take from the start  
Take me in your arms  
Hold me baby  
Sometimes I see you alone and a stranger  
Take me in your arms  
I need you  
Love is true, I know cause I've been there  
I was a soldier of fortune  
She was a girl on the run  
How did we ever get this far?  
Take time to make it and say you wanna know  
I'll be the last one to ever let you go  
Take me in your arms  
Hold me baby  
Sometimes I feel alone and a stranger  
Take me in your arms  
I need you  
Love is true, I know cause I've been there...
