

We Are Strong

Hurricane

We are strong
You and me
Keep on fighting
Never let it be
We are strong
We belong

I know you're thinking we're stuck in the middle
Love's tough, sometimes it gets you down
Which way we'll go is always a riddle
Standing tall with two feet on the ground

Facing hard times
Hold on
Time's still on our side
You can surrender
But you will remember
It was the best love
The best love of all

So good
Like it should
You next to me
How can I make you see?

We're gonna stick it out
That's what it's all about, yeah

We are strong
You and me
Keep on fighting
Never let it be
We are strong
We belong
In the end you will see

Some people that you're a sensation
Lift you up until your head's in the clouds
That's not the way, it's all over, wasted
Better to sell your flesh by the pound

Facing hard times
Hold on
Time's still on our side
You can surrender
But you will remember
It was the best love
The best love of all

So good
Like it should
You next to me
I've got to make you see

We've got to stick it out
That's what it's all about, yeah

We are strong
You and me
Keep on fighting
Never let it be
We are strong
We belong
In the end you will see

We are strong
You and me
Keep on
Keep on
We are strong
We belong
In the end
In the end

Strong
You and me
Keep on fighting
Never let it be
We are strong
We belong
In the end you will see

We are strong
You and me
Keep on fighting
Never let it be
We are strong
We belong
In the end you will see

We are strong
Keep on
Keep on
We are strong
We belong

We are strong
We are strong
