

# Spotlights

Hurts

Aaah  
There's something about you girl  
You're straight from another world  
And I won't quit

Aaah  
I feel invincible  
And you're so untouchable  
But I won't quit

Underneath spotlights  
My shadow's hard to find  
Underneath spotlights  
I fade into the night

Aaah  
I said there's something about you girl  
And you're irresistible  
So I won't quit, no I won't quit

Underneath spotlights  
My shadow's hard to find  
Underneath spotlights  
I fade into the night

Spotlights, hit the band  
And they're making you feel like superman  
I see the spotlights, hit the band  
And they're making you feel like superman  
Spotlights, hit the band  
And they're making you feel like superman  
I see the spotlights, hit the band  
And they're making you feel like superman

Underneath spotlights  
My shadow's hard to find  
Underneath spotlights  
I fade into the night

Spotlights, hit the band  
And they're making you feel like superman  
I see the spotlights, hit the band  
And they're making you feel like superman  
Spotlights, hit the band  
And they're making you feel like superman  
I see the spotlights, hit the band  
And they're making you feel like superman
