

All I Got

Hush.

It's my time to shine
I can't let nothing hold me back
This ring is my stage

Yo, Everybody's gotta
a story to tell,
my book begins when
the rest of the world
takes a look
at my life, my eyes
the things that I've seen
my world, my pain, the
things that I dream
this time it's my turn, I
know what I've got
One Blood
One Heart
One Mind
And one shot
I've got to prove it
to myself that I
cannot fall
And carry the weight
of the world in my palm

I fight myself inside everyday
I know it's a struggle
but still I maintain
To play by the rules
there's no way
that i cannot win
today is my day!
It's my life
and i aint gonna waste it
my dream
You know I gotta chase it
No Fear, No time to go back
I've gotta leave a pint of
blood on that mat
this is it
It's all I got
One Blood
One Heart
One Mind
And one shot
this is it
What I've waited for
Everything that I worked
hard and payed for
My fear I gotta face it
So close I can taste it
This is it
It's all I got
One Blood
One Heart
One Mind
And one shot

Yeah!
