

# Hush Is Coming

Hush.

"Turn my vocals up a little bit more Scott... all of 'em..."

"Yeah... uh huh..."

I'm caught up inside a tornado and sucked in  
By a rainstorm holding a hairdryer that's plugged in  
Somewhere between the Renaissance Center and 8 Mile  
Inside the Rock City that has spawned a unique child  
And lightening strikes twice I was hit when they birthed me  
And now I gotta live with this mouth that they cursed me  
They said I gotta use it with tracks and try to fuse it  
Don't abuse it and don't ever let 'em crack on your music  
So I sit and watch the people that do it and don't pursue it  
And instead I jot a little bit down then go review it  
I just wait until I'm ready to leap and jump into it  
Until I feel a little more confident I can do it  
Not so many years later I've waited and now I'm here  
To release a masterpiece on everybody in fear  
I ain't holding nothing back in a world that's full of evil  
My words can only injure or hurt so many people  
I'm here to trade spaces shatter and blade faces  
With guitars and bass lines and embrace and break stages  
The pain'll come in phases for now it's just outrageous  
When I'm knocking hear me cocking my gauge cause I'm impatient  
From the Motor City...

(Let 'em know that) Hush Is Coming

(You ain't heard spread the word on down)

Down to New Orleans...

(You can tell 'em that) Hush Is Coming

(I said you can tell 'em that) Hush Is Coming

From the penitentiary...

(Let 'em know that) Hush Is Coming

(You ain't heard spread the word)

To the criminals roaming the streets...

(You can tell 'em that) Hush Is Coming

(I said you can tell 'em that) Hush Is Coming

I've waited so long to unleash on these streets

A diary with more fury in sprees than Alicia Keys

My words are mere visions of movies with non-fiction

Intertwined in each rhyme that I spit with sweet diction

The rest are so pathetic and best are copasetic

By the time it hits you dead in the chest I hope you get it

I'm out to break laws slice and break jaws

Or I'll be on your stage with an axe and chainsaws

Of course my pains raw my brain is off a little

Ever since the first time I could rhyme and solve a riddle

Simon says go ahead and block the silence

And fuck with anybody who says to stop the violence

Go run and tell your parents I'm evil and I'm the devil

When it's gonna take a nation of mil to stop a rebel

Cause now it's all over I'm crazy and even zany

Lyrically Scorsese on a track by Mr. Shady

From San Diego...

(Let 'em know that) Hush Is Coming

(You ain't heard spread the word)

All the way back to Queens...

(You can tell 'em that) Hush Is Coming

(I said you can tell 'em that) Hush Is Coming

This ain't a rumor...

(Let 'em know that) Hush Is Coming  
(You ain't heard spread the word)  
Remember you heard that from me...  
(You can tell 'em that) Hush Is Coming  
(I said you can tell 'em that) Hush Is Coming  
My behavior gets erratic on tracks that got static  
When I spit the bullets just keep coming it's automatic  
I'm ill it's been said every letter I let sink  
And left 'em dead inside a puddle of songs with red ink  
I played away shy since the day I stayed high  
And staged dive from the top of my roof at age 5  
My mother always said that her son was gonna make it  
If he wasn't gonna make it he'll have to go and take it  
So now I'm on Geffen the whole world is trippin'  
Cause another new MC from the D is off and flippin'  
And this one's Lebanese do we have to say the bomb  
Is he related to Osama Bin Laden or Saddam  
I'm just a suicidal bomber on tracks and always killin'  
Everything that ever gets in my way and such a villian  
If you think you know me now then get ready because I'm grinning'  
This ain't even near the end of Omega it's just beginning'  
From the City of Angels...  
(Let 'em know that) Hush Is Coming  
(You ain't heard spread the word)  
To the streets of Mississippi...  
(You can tell 'em that) Hush Is Coming  
(I said you can tell 'em that) Hush Is Coming  
For the players that's hatin'...  
(Let 'em know that) Hush Is Coming  
(You ain't heard spread the word)  
You better start clearing the street...  
(You can tell 'em that) Hush Is Coming  
(I said you can tell 'em that) Hush Is Coming  
(Tell 'em Nate what) Hush Is Coming  
(Pull 'em out mafuckerz cause) Hush Is Coming  
(Better run cause) Hush Is Coming  
(Better duck mafuckerz cause) Hush Is Coming
