

Every Word

Hybrid

Color my heart in the shade of yours
Safe in my mind is my choice
Watching the shades change to blue and green
See al the things that I know you've seen

Sometimes run away
And sometimes just want to stay
Sometimes just one day
where I'm watching every word you say

Straight ahead as fast as I can run
Wild horses ... me to come
Open the doors and let the wind blow in
Finding the place I've always been

Sometimes run away
And sometimes just want to stay
Sometimes lately
I'm watching every word you say

I'm watching every word you say
I'm watching every word you say
