

Late at night, down under the ground
In the dark, just you and me
In this room, with the lights out
I can be who you want me to be

Late at night and lost in your love
In the dark, I want you near
I'm your whore and you're my white dove
I can make us disappear...

Late at night and lost in your love
In the dark, I want you near
I'm your whore and you're my white dove
I can make us disappear...

All I wanna do is shout about it!
All I wanna do is breathe you in!
All I wanna do is never be without it!
Don't save me from this original sin!

All I wanna do is shout about it!
All I wanna do is breathe you in!
I can never live without it,
Where you stop is where I begin!

All I wanna do is shout about it!
All I wanna do is breathe you in!
All I wanna do is never be without it!
Don't save me from this original sin!

All I wanna do is shout about it!
All I wanna do is breathe you in!
I can never live without it,
Where you stop is where I begin!
