

I'm crossing the borderline  
Without a sound  
A wilderness  
no one could ever know  
The sadness  
How it brings me down  
I know I have no choice  
Is it wise? Taking a life?

And I need to know  
Tell me how I should see the light  
I draw the gun And I take aim  
The world stands still Like a dream  
I stray

I'm crossing the borderline  
God's on my side  
The sacrifice  
We make in heaven's name  
I'm praying  
But there's no escape  
I fire a ball of lead  
It's so cold This can't be love

And I need to know  
Tell me how I should see the light  
I draw the gun And I take aim  
The world stands still Like a dream  
I stray

And I need to know  
Tell me how I should see the light  
I draw the gun And I take aim  
The world stands still Like a dream  
Hear me pray  
I stray
