

# White Song

Hyde

Breathe  
Crisp and cleaning the winter air  
I dream of a world in a peaceful sleep  
Snow falling gracefully down  
Rejoice in winter's deep charm  
I can't wait  
I can't wait

Freeze  
People gather around the fire  
I feel all the warmth that the cold inspires  
Frost covered tree tops are bright  
Shimmering silver tonight  
I can't wait  
I can't wait

I hope snow will fall upon us soon  
Everywhere  
The whole world veiled in white  
I'd be reset to face the seasons  
Once again

Yes on and on falls the snow  
Like diamonds from the sky

Kowareta kokoro he furisosoi da nara  
Haruka na kisetu mo watatte yukeru!

I hope snow will fall upon us soon  
Everywhere  
The whole world veiled in white  
I'd be reset to face the seasons  
Once again
