

# Words Of Love

Hyde

I lost myself  
I think I need someone in here?  
I know I'm sane  
But still my daemon calls me  
A lot of bruises to remind me what I'm here for  
Let's play six six six  
You better picture this  
I'm not a hopeless case  
You want a piece of me  
Say the words of love  
If you wanna kiss  
If you want a kiss of me (justify your love)  
Love is you wanna dance  
If you wanna dance with me (justify your love)  
Let me be  
Let's play six six six  
You better stick with me  
I wonder what is right  
I know you want me too  
Say the words of love  
If you wanna kiss  
If you want a kiss of me (justify your love)  
Love, if you wanna dance  
If you wanna dance with me (justify your love)  
Let me be  
I just want some peace of mind  
I need the perfect situation  
I want to be a stimulator  
I don't need no other complication  
Stop dragging me in your misery  
It's not enough  
You know how hard it is to make it clear  
I might be wrong  
But no one's ever told me  
Inside my head I hear these voices telling me  
Let's play and kiss kiss kiss  
You better picture this  
I'm not a hopeless case  
You want a piece of me  
Say the word of love  
If you wanna kiss  
If you want kiss of me (justify your love)  
Love, if you wanna dance  
If you wanna dance with me (justify your love)  
Love, if you wanna kiss  
If you want a kiss of me (justify your love)  
Love if you wanna dance  
If you wanna dance with me (justify your love)  
Let me be  
Let's play six six six
