

Eternal

Hydria

I'm not alone this time
Cause you are by my side
To guide me through the starring sky

Fear is not my friend anymore
And i belive in everything you do for me

We'd come from so far away in time
Just to be together in this life
You'll always be my greatest treasure
And now i see

like a field of white roses
It feels so good inside
And it will last forever...
My eternal dream

We're lost in a grand blue sea
Full of joy and serenity

There will never be a day
When i'll let it slip away in time

Because we are together in this life
You'll always be my greatest love

like a field of white roses
It feels so good inside
And it will last forever...
My eternal dream

My eternal dream... You will always be.
