

# Mirror Of Tears

Hydria

My lust, your fright  
Your love, my sore  
My wish, your deepest scar

My warmth, your shelter  
Your smile, my sickness  
My demands will never stop

You belong to me...

Come make all of my dreams get lost  
In your salvation  
Your weakness is the fuel of my desire

I wanna take you with me to  
my inner wonderland  
You'll see a dark and beautiful world  
Of pleasure and sacrifice

There's no escape  
I'll convert you in a prisoner  
Of my unfair desire  
Come and see through my clear  
Mirror of tears

Come make all of my dreams get lost  
In your salvation  
Your weakness is the fuel of my desire  
Come make the darkness close the door  
To your own freedom  
You'll be the prisoner of a lonely soul

Translucent eyes will lead you down  
To my scars  
You will feel the rage behind  
This mask...
