

Fireworks

Hyland

So let's take it nice and slow
Cuz there's no where else to go
That we can commit to
Well, I've been this way before
And all the roads point to the door
You can leave if you want to

I've had quite enough
Of this lust disguised as love
To light our hearts
All-consume us

Fireworks'll never work, baby
There's nothing left when our innocence is all but lost
Fireworks'll only burn, baby
There's nothing left when our innocence is lost
There'll be nothing left of us

Strike a match and light the flame
There is no one left to blame
Once this arson consumes you
And still we say
"In God We Trust!"
Set our hearts to self-combust
Say goodbye to all you knew

I've had quite enough
Of this lust disguised as love
To light our hearts
All-consume us

Fireworks'll never work, baby
There's nothing left when our innocence is all but lost
Fireworks'll only burn, baby
There's nothing left when our innocence is lost

I will wait for you
If it's the last thing that I do
I will wait for you

I will wait for you
If it's the last thing that I do
I will wait for you

Fireworks'll never work, baby
There's nothing left when our innocence is all but lost
Fireworks'll only burn, baby
There's nothing left when our innocence is lost
There'll be nothing left of us
