Never

Hyland

I've been takin' my time
Buildin' these walls that
I'm hidin' behind
I've been diggin' these trenches
An' paintin' these fences
To hide what's inside

You seem to already know
I'm spinnin' oughta control

How many times can I fail You
Before You say You're thru
That You've had enough
A thousand times have I fallen
And still You keep callin'
You never give up
Never!

I've been watchin' walls cave in
But I will die tryin'
To save my own skin
If I could let down my guard, well
You'd find that I'm scarred and
You'd see all my sin

You seem to already know
I'm spinnin' out of control

How many times can I fail You
Before You say You're thru
That You've had enough
A thousand times have I fallen
And still You keep callin'
You never give up
Never!

You said that You'd never leave me
You'd never forsake me
You'd never let go
You said You'd come to my rescue
That You'd be my refuge
To never loose hope

How many times can I fail You
Before You say You're thru
That You've had enough
Never!
A thousand times have I fallen
And still You keep callin'
You never give up
Never!

You said that You'd never leave
That You're all I need
You'd never give up
