

American Boy

Hypnogaja

Born free and stay that way
Don't even care what the others say
The rebel coming through
For the devil in you
Got no patience for nothing
Filled bad attitude

Got a real fast car
And a girl that's faster
I'm a type for destruction
And a hunger for disaster

Break the ice and break the mold
In the land of sex drugs and rock and roll
Break the ice and break the mold
Cause it's all sex, drugs and rock and roll

[American boy]
French fries and a coca cola
[American boy]
Levi's and a lot of soda
[American boy]
Elvis with a TV dinner
[American boy]
Everybody thinks you're a winner

Die young, leave a pretty face
You're on a pedestal
But your falling from grace
No order is to know
And the world is yours
From the very best jobs
To the girl next door

Junk food
Acting rude
Do whatever you please
Go and bring the whole world down on it's knees

Got to get and got to go
In the land of sex drugs and rock and roll
Yes, you got to get and got to go
Cause it's all sex drugs and rock and roll

[American boy]
French fries and a coca cola
[American boy]
James dean and Marilyn Monroe
[American boy]
Elvis with a TV dinner
[American boy]
Everybody thinks you're a winner

Everything comes easily
All designed to suit your needs
Live your life selfishly
You're so care free

Born free and stay that way
Don't even give a fuck what the others say
The rebel coming through for the devil in you
Got no patience for shit and filled with bad attitude

Got a real fast car and a bitch that's faster
I'm a type for destruction
And a hunger for disaster

Break the ice but fuck the mold
In the land of sex drugs and rock and roll
Break the ice but fuck the mold
Cause it's all sex, drugs and rock and roll
Break the ice but mother fuck the mold
Cause it's all sex, drugs and rock and roll

[American boy]
French fries and a coca cola
[American boy]
Levi's and a lot of soda
[American boy]
Elvis with a TV dinner
[American boy]
Everybody thinks you're a winner
