

It seems a hundred years have passed me  
Alone on the road  
It's been forever since I had a  
Place of my own

I've spent a thousand lifetimes  
Searching for mine  
It's been so hard to find

And it feels like I'm home  
It's been a long road alone  
And it feels like I'm free  
It's been a long way to me

Now that the fight is fought and won  
Now that the words are said and done  
I see the fire inside  
When I look into your eyes

And it feels like I'm home  
It's been a long road alone  
And it feels like I'm free  
It's been a long way to me

I roam far and wide  
I didn't know if I'd live or die  
I searched night and day  
To find my way

And it feels like I'm home  
It's been a long road alone  
And it feels like I'm free  
It's been a long way to me  
And it feels like I'm home  
It's been a long road alone  
And it feels like I'm free  
It's been a long way to me
