

Need To Believe

Hypnogaja

Tell me can you save me
From myself
Am I all you need
And no one else
You can't be all that you seem
I just need to believe

Tell me is it safe to assume
I will always be enough for you
I can't be all that you need
I just need to believe

I don't want forever
Only a moment that's real
And I know that I am just pretending
Cause I don't believe in happy endings

Tell me do you see me
For what I am
Am I your portrait of the perfect man
This can't be all that it seems
I just need to believe

I don't want forever
Only a moment that's real
And I know that I am just pretending
Cause I don't believe in happy endings

And I know that I am just pretending
[Can you see me?]
Cause I don't believe in happy endings
[Need to believe]

Don't want to face reality
Right now I just need to believe
And I know that I am just pretending
Cause I don't believe in happy endings

And I know that I am just pretending
[Can you see me?]
Cause I don't believe in happy endings
[Need to believe]
All I need is to believe (8x)
