

# The Spaceman

Hypnogaja

I wake up every day  
To find myself in the same place  
Surrounded by this life  
Trapped inside this space and time

I'll find my way to escape

I want to leave this world behind  
And travel like a spaceman  
I want to walk the stars at night  
I want to be the spaceman

I watch the skies go by  
And think about a better life  
So many miles away  
From this mess that we've made

I'll find somewhere and go there
