

# Across The Battlefields

Hypnos

Young and brave  
born to hate  
join us now  
we are green enough

Never ask me why  
it is all the same  
we need to survive  
we need to survive...today

Come on soldiers I will take you  
on the glory ride  
you will like it, you will be always  
fighting side by side  
to finish one's human story  
you do not need to spell  
when again your gun is loaded  
you will say: Go to hell!!

We are your future  
find your enemy  
we are top class culture  
you brainless family

Never ask me...

Praise the war  
army's force  
praise your green  
uniform

Never ask me why
