

Heroism Of New Era

Hypnos

Glorify new heroes, down with moral cries
our era began in time
material frenzy contra terroris(la)m
self-satisfaction suicide

See through the lies, old hero dies
consuming kind, purulent find
Dogmatic wars, criminal source
suicidal art of new era

No more days of peace
time-bomb friend pays ticket to Paradise
Really shall we have to read between the li(n)es of Koran? Fund
amentally blind

Kill, kill in the name of Jihad
kill for your delusions
You've got the right to finish with everyone
Blocked in rudiment mind, you're the king of wimps

Wide open eyes, new hero dies,
absent smile, heaven's trial
Dogmatic wars, criminal source
suicidal art of new era.
