

# Regicide

Hypnos

Coronation of impious God  
Supremacy, open up the stairs  
A few serpents planning regicide  
but the lion never succumb to the rats

Resentment against playing this chess  
Easy downlook from extensive top  
Imperial punishment is merciless  
short-time effect of exciting dope

When the dogs keep barking at the moon  
it's orbit will never changes  
to whip the dogs is not worthy of the ruler  
disloyalty remains in the mind

Don't forget to make your disguise up  
who wants to show up as dishonoured  
but you are known as are your plans for regicide  
epicene life in a outmoded hole

This time the sun turns its back on you  
this time and everytime  
charnel-house is casting vote for massacre  
die-the one who's walking on thin ice

Next day starts with sunrise and blood  
a few another serpents have died,  
planning regicide!!!
