

## Fractured Millennium

### Hypocrisy

Yeah!  
I came from second universe,  
My travels far.  
Oh, mankind, I'm not pleased.  
Is this the way you're supposed to be?  
You're free from decay.  
Doesn't anyone care anymore?  
Killing your own world,  
There's nothing to stop you.  
Can't you see what you're doing?  
It's gotta end  
Or nothing will be left.

Dying planet.  
Mother Nature bleeding,  
She will die.  
Burning planet.  
Burning lives,  
Indulging will commence

I'm scraping out in soil,  
But there's nowhere to grow.  
??? people rule  
But you won't quit  
No!  
Ready to strike back  
Ready for death  
Armageddon waits near  
For the rules of this world  
You gotta go on 'til you die.  
We're plundering and your money and  
Power is all you believe.  
Praying to God who don't exist.  
Can't you see what you're doing?  
It's gotta end  
Or nothing will be there.

Dying planet.  
Mother Nature bleeding,  
She will die.  
Burning planet.  
Burning lives,  
Indulging will commence
