

# Global Domination

## Hypocrisy

The colonisation of a new species  
Infecting you and me  
The virus has mutated  
Into an extra-terrestrial biological entity

The blessed ones will be genetic hybrids  
The survival is the ultimate ideology  
We got to fight the future

The geometry of mass infection - global domination  
Presented to an extended holocaust

It has started  
The global domination  
Mass infection

Waiting to be reconstituted  
And colonized by an alien race  
And uninvolved pathogen  
The mass infection will make us a slave race

The blessed ones will be genetic hybrids  
The survival is the ultimate ideology  
We got to fight the future

The geometry of mass infection - global domination  
Presented to an extended holocaust

It has started  
The mass infection
