

Global Domination

Hypocrisy

The colonisation of a new species
Infecting you and me
The virus has mutated
Into an extra-terrestrial biological entity

The blessed ones will be genetic hybrids
The survival is the ultimate ideology
We got to fight the future

The geometry of mass infection - global domination
Presented to an extended holocaust

It has started
The global domination
Mass infection

Waiting to be reconstituted
And colonized by an alien race
And uninvolved pathogen
The mass infection will make us a slave race

The blessed ones will be genetic hybrids
The survival is the ultimate ideology
We got to fight the future

The geometry of mass infection - global domination
Presented to an extended holocaust

It has started
The mass infection
