Legions of world domination

These bastards came with a method of hate Suicide, the end; prayer for death Yeah, yeah, yeah
Armageddon, our earth they cast away
??? is far from here

The angels cry and run in vain Satan's victory, earth will stand inflamed Oh, the holocaust is falling in Legions of world domination

The ??? always burning black Murder and the sky turns red Yeah, yeah, yeah Turn crosses upside down Yeah, so that we see the sign.

Walk with me through the flame Teach this world; things it's done What we say; burning down Evil world; have no life

Just choose death to come in the light It's the teacher's way

Here we go!

The angels cry and run in vain Satan's victory, earth will stand inflamed The holocaust is falling in Legions of world domination

The angels cry and run in vain Satan's victory, earth will stand inflamed The holocaust is falling in Legions of world domination
