

## Living to Die

### Hypocrisy

A cocoon binds my skin, it wants to keep me alive  
I am the great messiah of the fallen paradise  
Destroyed by my own creations, I cannot cope with life  
The truth you know so well- it's just a big lie

You live to fear,

You lay yourself to rest  
Programmed to crawl- it's just a battle with hell  
We are the prey, cannot break this spell

We are the signs that caged in the dirt  
We are the plague spreading through the world  
We are the disease- the virus eating away  
We are no one, we're just living to die

We're just a lie,

We're just a fake  
I can't wait 'til I'm finally dead  
Erase my numbers and hope to never return again  
Computerized

We are all neutralized in a world  
That's controlled by machines

You live to hate,

'til someone presses delete  
The things we go- it's just a battle in hell  
We are the dirt- can I break these chains?

We are the signs that caged in the dirt  
We are the plague spreading through the world  
We are the disease- the virus eating away  
We are no one, we're just living to die
