

# Tales of Thy Spineless

## Hypocrisy

See your future come crashing down  
Evil's licking its lips  
Another feast of a spineless man  
That tries to fight for his life

Infected system, infected minds  
They're blinded by greed  
Our days are numbered  
Our days are few  
The devil takes what he wants

Bloodshed released  
Chambers filled with deceptions  
Don't trust the priest  
The living dead  
Corruption slips right through its fingers  
You've been deceived

Turning dreams into hatred  
Spineless man crawling in the dirt  
And crushing lives for the pleasure  
The world is spinning out of control

infected system, infected minds  
They're blinded by greed  
Our days are numbered  
Our days are few  
The devil takes what he wants

Bloodshed released  
Chambers filled with deceptions  
Don't trust the priest  
The living dead  
Corruption slips right through his fingers  
You've been deceived

He who lives among the scums  
And lives to tell the tales  
The tale of the spineless ones  
He'll be the last man standing

United we fall  
United we crawl

The new world order  
United we fall  
It will come crashing down  
The new world order  
United we die  
It's all a lie

The tale of thy spineless one

Bloodshed released  
Chambers filled with deceptions  
Don't trust the priest  
The living dead

Corruption slips right through his fingers  
You've been deceived
