

# The Eye

## Hypocrisy

Flying secret mission into the unknown  
Leave the people in the dark  
Spraying our sky's with chemicals and poison  
Keep population intact  
Controlling births, controlling food,  
control everything you are  
Medicine is what you need  
So they can make all the money on you  
and spread the fucking disease

How blind we are  
Why can't anyone see?

Controlled by the eye that sees  
Try to escape  
But we'll never be free  
Blinded by fear we are  
We're living like slaves  
Now it's gone too far

They turn us into freaks  
then they lock us up  
for disturbing the peace  
those motherfuckers got us pinned down  
where they want us  
see how we flee  
run for your life  
run as fast as you can  
they're gonna turn up the heat  
living on the edge is what they want  
just fight for your life until you bleed

How blind we are  
Why can't anyone see?  
like cattle we live  
Crack the whip  
Its time to stand up and expose the truth

Controlled by the eye that sees  
Try to escape  
But we'll never be free  
Blinded by fear we are  
We're living like slaves  
Now it's gone too far
