

Total Eclipse

Hypocrisy

Though hate is a blackened art,
May your eyes all be upon me
Open me up to take the life
Forever, I'll be free

Cuts are on my ???
Rise into the sky
A usurping sun
It will be the final eclipse

Drowned in the Red Sea
Rivers are running wild
Delusions become ???
Just the thing to set us off

??? has been denied
Universal genocide
In pain we will lie
Creation of the demon sky

The god of the fire is born
To come and take control
Nothing is left behind
??? this earth

Now, you're dead and gut upside down
Hell is folding in
The fiend are rising from the ashes
We will take their dead

Take their dead

Cuts are on my ???
Rise into the sky
A usurping sun
It will be the final eclipse

??? has been denied
Universal genocide
The pain, we lie
Creation of the demon sky
