

# War Within

## Hypocrisy

When you were born, that's when I died, it took too long to realize

I am white, your black, I'm slowly turning to gray  
Like a disease you break me down and cry  
You're the king, I'm the fool

I'm your eternal prey.

Die! let me regain control  
Die! Let me reign in my own soul  
Die! Let my life return  
Die! I'd do anything to see you burn!!

What I create you desecrate  
Fuelled by endless hate  
How can I win this war?

This war against myself?  
You're the king, I'm the fool

Die! let me regain control  
Die! Let me reign in my own soul  
Die! Let my life return  
Die! I'd do anything to see you burn!!

If I decide, it's suicide inside of me  
How will I know you won't follow me?

You tricked my mind, you made me blind, but I finally can see  
There's no escape. Cerebral rape, you're my destiny!

You turn me on, you turn me off  
Like I'm a fucking machine!  
You tuck me in, you throw me out

Now all my thoughts are obscene!

Die! let me regain control  
Die! Let me reign in my own soul  
Die! Let my life return  
Die! I'd do anything to see you burn!!
