## **Heels of Steel**

Tonight is the night I've had it I'm out Tonight Your lies and deceit Won't hurt me no more Tonight I will stand up and fight

I'll crush you like a peanut
I'll crush you between my thighs of doom

I'm gonna make you feel My heels of steel Get down on the ground and kneel Kiss my heels of steel

No pleading for mercy Will help you this time Beware There is no relief In your charm or your eyes Beware it's time to say your prayers

I'll crush you like a peanut
I'll crush you between my thighs of doom

I'm gonna make you feel My heels of steel Get down on the ground and kneel Kiss my heels of steel
