

# Louder

## Hysterica

If you're seeking after gold  
Take your guitar and play it loud  
If you wanna be a rocking star  
You need to show us who you are

Make your amplifier gleam  
Hit the stage and start to scream

Stab and shout louder  
Stab and shout louder  
Stab and shout louder  
Stab and shout louder

If you're losing all your faith  
We will show ya a higher state  
We're approaching the final goal  
Are you ready to lose control

Bang your head, stand with the band  
Join the heavy metal land

Stab and shout louder  
Stab and shout louder  
Stab and shout louder  
Stab and shout louder
