

## Message

Hysterica

Message from the dark  
Tears me my mind apart  
Calling out your name  
This cloud burning pain  
Black burn in the sea  
Whispers come to me  
Thousand miles away  
Early this judgment day

(Message from the dark)  
And I can't stand the pain  
I have to leave this room  
The panic is rising  
I think I'm losing control  
No I can't stand the pain  
I have to leave this room  
Breath is aching  
I think I'm losing control

We're gathered here today  
The sky is turning grey  
I feel you in the wind  
Eternity  
There's sadness in their eyes  
This is their last goodbye  
In loving memory  
It's killing me

(Message from the dark)  
Burning pain  
(Message from the dark)  
The judgment day

Message from the dark  
I hear your words in my heart  
Feel them in my breath  
Recall them all 'till my death  
Imagination or is it all hallucination  
Don't know what is true  
I think I'm gonna blame it all on you
