

You're A Fake!

I Am Empire

You know it's all the same
Every single pretty word you say
The taller the talk, the farther the fall
We watch you fall away.
Living life in the fast lane
You're slipping fast
Don't lose control
Living life in the fast lane

Get up, get up, get up!
You know it's all the same
Just walk away from everything you were

You're a fake!
I can see the knots that your tongue makes
Forever missing the crucial element.
