

## Of Masques and Martyrs

I Am Ghost

Fate Outside these doors  
Of masques and martyrs ad the loveless  
The sin was beautiful  
Blank empire closed, the eyes of heaven shine a  
smoke screen, a voice  
the sound was kissed and sold  
Best regards to the fashion corpse of grey  
It thins the shallow blood in me

Only the lonely will know  
How it feels to decay, it consumes me  
She cries inside, tonight we won't die

Vampire kiss, so watch me burn  
I raise my hands, I'm stained and shallow  
Darkness, bloodless  
Tempest hatred for the love that won't die

Only the lonely will know  
How it feels to decay, it consumes me  
She cries inside, tonight we won't die

Obsession, our gods  
I'd die just to feel you  
Descend, the fall  
I'd die just to be with you

This is the saddest story

Only the lonely will know  
How it feels to decay, it consumes me  
She cries inside, tonight we won't die  
Only the lonely will know (consume me)  
How it feels to decay (just for you)  
She cries inside, tonight we won't die
