

They Always Come Back

I Am Ghost

I brushed away the sticks and mud that covered your
face.
A pretty smile stares directly at the sunlight
Your skin has turned blue, you're not alone (you're not
alone)

I found a place where they could never hurt you
A place where everyday is Halloween
A lovely state of mind where we can run free
Let's bring back the colours then take our picture
This coffin meant for you and me
We'll sing to the others and dance in pictures
We'll live again for everyone to see

A theater full of bodies bragging we're all dead
It doesn't seem to scare you like it did me
This loss of virtue
Never seemed so fun
(Never seemed so fun)

I found a place where they could never hurt you
A place where everyday is Halloween
A lovely state of mind where we can run free
Let's bring back the colours then take our picture
This coffin meant for you and me
We'll sing to the others and dance in pictures
We'll live again for everyone to see

This lovely, lonely, ugly place to hide
This place where we died
I'm such a sucker for a pretty girl in black
And skin so white

Let's bring back the colours then take our picture
This coffin meant for you and me
We'll sing to the others and dance in pictures
We'll live again for everyone to see

A place where everyday is Halloween
A lovely state of mind where we can run free

A place where everyday is Halloween
A lovely state of mind where we can run free
Let's bring back the colours then take our picture
This coffin meant for you and me
We'll sing to the others and dance in pictures
We'll live again for everyone to see
(To see.)
