I Am Kloot

love, may have just come to bury me  
but i'm not afraid of what i see  
i'm not afraid of the world

time, has gathered us here by coincidence  
that's why what i say doesn't make any sense

love, may have just come to bury me  
but i'm not afraid of what i see  
i'm not afraid of the world

we, are all gathered us here by coincidence  
that's why what we say doesn't make any sense

you, may have just come to carry me  
beyond the things i've ever seen

love, may have just come to bury me  
but i'm not afraid of what i see
