Deep Blue Sea

Glad to see, Sad to say And get my things and get away I've got a light beam soul inside my head To get my gear and knock 'em dead Like the sunshine, and the moon glow And the light thrown on a deep blue sea.

Came back here, to the state were in? And fake it fast to see their grin To slow to lose, too fast to win I come back here to the state we're in? But you're the sunshine, you're the moon glow You're the light thrown on a deep blue sea.

Amazed and a mess, is this all for me? You got my gear and got me free I've seen the life strains and never wins So fate me fast or make me grin Like the sunshine, and the moon glow And the light thrown on a deep blue sea.

We're the sunshine, We're the moon glow We're the light thrown on a deep blue sea. Blue sea, Blue sea, Blue sea, Blue sea, We're the sunshine, We're the moon glow We're the light thrown on a deep blue sea. We're the sunshine, We're the moon glow We're the light thrown on a deep blue sea.

I Am Kloot
