

## Backup Plan

I Call Fives

So let me tell you a story of how it all began  
You're fake, fucked, and boring  
The same as all your friends  
The same as all your friends  
And while you stand there looking to heaven  
I'm moving on again cause I've had it

Don't make a sound (Don't make a sound)  
Cause you were another one that just kept me around  
And I don't think that I can stand knowing I was a backup plan  
And I told you once before  
I don't want to feel that way anymore, so I'll let you go  
And give it everything I've got to never come back home

You had it all, and it's hard to watch you throw this all away  
I can't believe how much you changed  
You became everything I hated  
I think you're fully overrated  
Proving once again how much you can get underneath my skin

Don't make a sound (Don't make a sound)  
Cause you were another one that just kept me around  
And I don't think that I can stand knowing I was a backup plan  
And I told you once before  
I don't want to feel that way anymore, so I'll let you go  
And give it everything I've got to never come back home

Don't make a sound  
You kept me around  
Don't make a sound  
You kept me around  
You kept me around

Don't make a sound (Don't make a sound)  
Cause you were another one that just kept me around  
And I don't think that I can stand knowing I was a backup plan  
And I told you once before  
I don't want to feel that way anymore, so I'll let you go  
And give it everything I've got to never come back home  
Never come back home
