

Everyone Knows

I Call Fives

Don't say you're giving it your all because you're not
And it seems like we've been here before
Don't you give it everything
Until it's worth you giving everything
So sweet, so short
I swear I'm giving it the best I've got
I spent my life being what other people say I'm not
These words run silent through your mind
Until they're tied in knots
That's all I've got

So you say it's not easy to do what you do
But I know the only person that you're fooling is you
Believe it or not, sometimes it's music meets art
It's never felt better to say
Just fade away

One more reason just to leave this all behind
But now we've just run out of time
And goodbyes have never been so sweet
Until I realized you weren't anything
So sweet, so short
I swear I'm giving it the best I've got
I spent my life being what other people say I'm not

So you say it's not easy to do what you do
But I know the only person that you're fooling is you
Believe it or not, sometimes it's music meets art
It's never felt better to say
Just fade away

Sorry, I'm not used to giving into everything you put me through
And I'm sorry that here too
See, everything you've done was just so damn wrong
So you say it's not easy to do what you do
So you say it's not easy to do what you do

So you say it's not easy to do what you do
But I know the only person that you're fooling is you
Believe it or not, sometimes it's music meets art
It's never felt better to say
Just fade away
