100 Dollar Bills

I Can Make a Mess Like Nobody's Business

I live my life like a hundred dollar bill To give to all my friends Or anyone at all I guess that's my way of hoping, oh yeah That I won't get left alone A la da da La-da da da La-da da da La-da da da And all my luck has given me this chance It's my uncertainties that brought me to this point Oh I know I'm gonna blow it, oh yeah So I won't care at all La da da da La-da da da La-da da da La-da da da I live my life like a hundred dollar bill To give to anyone But no one really cares I guess I've been mistakin' The green of the grass with the color of my hands
