

Ancient Crows

I Can Make a Mess Like Nobody's Business

No time to take it slow
yeah I've got somewhere to go
You'll be laughing all alone
Cause life's too short and you can't stop living now
I figured it would somehow all work out
but it's time to face it now
cause life's too short we can't stop living now
We have a right to love
so raise your hands and don't give up on us
To remain existing lows
to sustain we have to grow to survive the ancient crows
yeah life's too short we can't stop living now
you figure that we'll all just make it out
but you have to make it count
we can't stop living now
A fool's take is a blind faith
surviving is the struggle every day
We can't stop living now
