

Connected

I Can Make a Mess Like Nobody's Business

On a bright summer day
With a big blue sky
Was calling out my name
What a beautiful surprise
So I look up now
I'm staring all around
You were up on a cloud
And you were screaming out

Reach high
Don't let go
You gotta stay connected to your home
So reach high
Don't let go
You gotta stay connected to your home

I'm rattled up now
I'm calling out your name
You up and turned around
Sent beads down my face
So I'm jumping off the ground
Reaching for the sky
But you up and blew away
So everybody said

Reach high
Don't let go
You gotta stay connected to your home
So reach high
Don't let go
You gotta stay connected to your home

It's our connection
I won't let you go
It's our connection
I won't let you go

Reach high
Don't let go
You gotta stay connected to your home
So reach high
Don't let go
You gotta stay connected to your home
