

## Rosary

### I Can Make a Mess Like Nobody's Business

I finally found a way back into your stare  
And when I took you back you told me I was always there  
Then you close your eyes and hide inside your head  
And when you run away you told me I was better then

Said well, Rosary, we can find a way around  
Even if you run away, I will find a way to hold you around.

We said let's go away to a place we thought we left  
Where we can close our eyes and then pretend that we were kids  
And if I fall away, you'll be my guiding eyes  
Even if we run away, we'll find a place to hide

You said, well, Rosary, we can find a way around  
Even if I run away, I will find a way to hold you around

Said, well, Rosary, we can find our way around  
Even if we run away, we can find a way to hold you, hold you do  
wn  
Hold you down.

Even if you run  
Even if you run

They found me in a hole behind your house  
A little dusty, shaken up, and hollowed out  
I'll follow you to make sure you got home  
Then I saw you had someone to hold you,

I was lost.

I said well, Rosary, we can find our way around  
Even if you run away, I will find a way to hold you around

Said, well, Rosary, we can find a way around  
Even if you run away, I will find a way to hold you, hold you d  
own.
