

What Happens Now

I Can Make a Mess Like Nobody's Business

I've given everything I've got
You've led me on for way too long
When give your all is all you've got
What happens now
You'll get over heartache
Carry on don't fear the fall
Cause you'll get over heartache
Let it go as time moves on yes you'll get over heart ache
Carry on it's not your fault yes you'll get over heartache
Let me go for once and all
You've been dragging this for way too long
When give your all is all you've got
what happens now
Carry on don't fear the fall
Cause you'll get over heartache
Let it go as time moves on yes you'll get over heart ache
Carry on it's not your fault yes you'll get over heartache
